MTRMA Claims Team

Program Year Update 2016-2017

MTRMA's goal through aggressive claim handling is to minimize claim dollars spent to the best of the team's ability. An example of this is in the area of fraud. MTRMA has won cases against fraudulent claimants, changing the landscape in the transportation arena of work comp. This precedent is a true testament to the claims handling philosophy of MTRMA. We thank our members for their continued safety-conscious approach to work comp.

On June 15, 1991, the Mid-West Truckers Risk Management Association (MTRMA) was created through the combined efforts of the initial MTRMA members and Board of Directors, the Mid-West Truckers Association and Cannon Cochran Management Services, Inc. At that time in history, trucking companies in Illinois were faced with skyrocketing insurance rates, ineffective insurance services and cancelled insurance coverage. Thus, the fundamental purpose of the program was then as it is today—to provide an affordable and stable long-term workers compensation alternative for reputable, qualifying trucking companies in Illinois.
